

M360mobile

What is M360mobile?

M360mobile is a Mobile App Platform for the U.S. Military. M360mobile is equipped with over 20 robust features that are exclusively built and designed to enable, engage, and empower our serve members to connect across the globe.

Available on:  

Built for the Military

The platform and specialized features are exclusively built and designed for the United States Military.

Easy Setup

A dedicated and highly experienced team facilitates a quick and seamless implementation process.

Integration

Seamlessly leverage content from existing systems and resources via feeds or APIs, including Yubikey and AFPIIMS.

Maintenance Free

Effortlessly update content on the fly without any code changes or additional programming needed.

Trusted

The mobile platform is proven and trusted by all service branches of the United States Department of Defense.

Customized

A powerful content management system allows you to meet the unique needs and requirements of your community.

Features

Over 20 Features including: Instant Notifications, Events, News, Fitness, Emergency, Family Readiness, Directory, and many more.

Groups

Password protected Group Communication that allows for instant Push Notifications directly through your App.
